

THE Lexington Intelligencer

A. W. ALLEN, Editor and Publisher.

Issued weekly on Fridays. Subscription \$1.50 per year, payable strictly in advance.

Entered as second-class mail matter at the Postoffice in Lexington, Missouri.

All communications to go into print in THE INTELLIGENCER must be signed.

Governor A. Mistake Hyde has found that the only man in Missouri qualified to be superintendent of insurance, is a brother of his.

Those who make comparison between Governor A. Mistake Hyde and ex-Governor Elliot W. Major, shouldn't overlook the fact that Major did learn to dance the Tango.

DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Lexington testimony.

Mrs. George Williams, 1801 Bloom St., says: "My back ached and pained dreadfully some five years ago. I used Doan's Kidney Pills and they certainly gave me fine relief. I was troubled with awful lameness and soreness in the small of my back at times. When I stooped over it was almost impossible to straighten because of the severe pains. Often little specks would come before my eyes, blurring my sight. My kidneys acted irregularly, causing me a lot of trouble. I became very nervous and weak and suffered most of the time. As another member of the family had used Doan's Kidney Pills with good success I got a few boxes and they entirely cured me of the trouble."

60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Misses Sylvia and Golda Brinkerhoff of Kansas City, spent Sunday here with relatives. They were accompanied home by their grandmother, Mrs. Mary Burress.

Frank Stevens of Archie, Mo., spent Sunday here with friends.

A Great Remedy.

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who had no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont.: "Four years ago I used Chamberlain's Colic and Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends."

A Traveling Man's Experience.

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."

Adv.

F. W. Little of Wichita, Kan., Wentworth, class of 1896, spent yesterday in Lexington calling on old friends.

E. D. Carter of Higginsville spent yesterday evening here on business.

An Old Fault Finder.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

Adv.

J. W. Sydnor accompanied by Rev. B. H. Bruner, drove to Odesa Tuesday on business.

Mr. and Mrs. W. J. Shinn drove to Kansas City Wednesday to spend the day with friends.

The Best Physic.

When you want a pleasant physic try Chamberlain's Tablets. The are easy to take and mild and gentle in effect. They are highly prized by people who have become acquainted with their good qualities. They only cost a quarter.

ABLE TO FORETELL WEATHER

Nature Undoubtedly Has Endowed Many Birds and Beasts With Keenly Prophetic Instinct.

Do birds and animals sense weather changes in advance? P. Connor, who forecasts weather for Kansas City and vicinity, referred to a weather bureau bulletin on weather folklore. "Observations of naturalists and herdsmen," said the bulletin, "go far to prove that birds and animals are cognizant of approaching changes in the state of the air, before we know of their coming by other signs."

"To many kinds of animals and birds," it continued, "the weather of so much more importance than to us, that it would seem strange if nature had not endowed them with a keenly prophetic instinct. It is not difficult to imagine that the physical organism of animals may be sensitive to weather changes, and that it has become an inherited instinct to associate the sensations experienced with the different kinds of weather."

As to signs in trees and flowers, Mr. Connor explained they simply express past and present conditions. "They are influenced mostly by the varying degrees of humidity, and are weather indicators only in so far as an increase of humidity might portend rain," he added.

JAVA WOMEN SEEK 'EQUALITY'

Movement Toward Emancipation Said to Be Making Headway in the Dutch East Indies.

Women's suffrage movements have reached the Dutch East Indies, the colonies whose history and ancient savagery were chiefly known to credulous Americans through circus-side-shows, wherein the "Wild Man of Borneo" and "The Terrible Dyaks, Feroocious Head-Hunting Cannibals," drew many dimes while the crowds waited for the "big tent" to open.

Head hunting and kindred savage pastimes still continue, to some extent, within the jungles of these Dutch islands, but, according to the Dutch press, most of the natives are rapidly adopting modern theories.

In Java, the upper class native women, under leadership of Raden Adjeng Kartini, a woman of high birth, are reported to be making rapid strides toward emancipation, although the Mohammedan custom of polygamy still prevails. In all the "Kartini schools," the girls of the upper classes are being taught occidental theories of equality with the men. Dutch correspondents say the progress of the movement is necessarily slow, but appears to be certain of ultimate success.—Brooklyn Eagle.

LAST SHOT WAS HIS.

When John was engaged to Ruth he gave her a diamond ring which she failed to return when she turned him down for Jimmie. Of course John was peeved and all the more so when he saw another diamond on her finger and was informed that it was Jimmie's ring which accompanied him. He showed it the first time he met Jim. "Say, Jim, but Ruth sure does look classy with both my ring and yours on her finger," he said.

Cheerful Jim grinned. "Oh, I don't mind," he retorted, "since mine is the ring on top."

"Yes," John returned, "but keep a close watch on that finger, old man, so that you can make a hurried exit when the third one comes into sight."—Exchange.

PAID WELL.

"I wuz in de movies once," said the tattered victor.

"Not an actor?"

"You could hardly call me dat, num. But in de big scene I wuz thrown out of a barroom by de star."

"You should have been well paid for that."

"Well, I got my \$5 a day, an' de drinks I took wuz real ones."—Birmingham Age-Herald.

LYMPH FOR FEVERS.

Dr. Artault de Vexy told the Societe de Therapeutique de Paris at a recent meeting that he had great success in treating nearly a thousand cases of infectious diseases such as influenza and puerperal fever by injecting the patient with his own lymph drawn from a blister. He had also succeeded with it in rheumatism, facial neuritis, appendicitis and other such troubles.

TO DEFINE CIDER VINEGAR

Question of Labeling Will Be Ruled On by the Courts.

The controverted question as to the labeling of vinegar made from evaporated apples under the Federal Food and Drugs act will be litigated in the Federal courts, according to a statement by the Secretary of Agriculture. Pending the decision of the courts it is announced that vinegar made from evaporated apples and labeled as "apple vinegar" will not be interfered with.

This controversy over the legal labeling of vinegar has been going on for some time. Back in February, 1921, the Department of Agriculture in a food decision defined vinegar, cider vinegar and apple vinegar as the product made from the alcoholic and subsequent actions fermentations of the pressed juice of apples. This decision further provided that "the product made from dried apple skins, cores and chops by the process of soaking, with subsequent alcoholic and acetous fermentations of the solution thus obtained, is not entitled to be called vinegar without further designation, but must be plainly marked to show the material from which it is produced."

Upon finding in the market vinegar made from evaporated apples but labeled as cider vinegar the department made a number of seizures. Some of the manufacturers elected to contest these cases in court. In the effort to reach a satisfactory settlement of this disputed question the Secretary of Agriculture, under date of July 14, 1921, called a public hearing and invited representatives of the industry, food law officials and all interested parties to submit their views. It was tentatively suggested that the term "apple vinegar" might be used to indicate the product made from dried apple stock, but that such product should not be labeled "cider vinegar" or "apple cider vinegar."

The hearing was attended by a number of vinegar manufacturers. Letters were received from many State officials charged with the enforcement of food laws. The oral and written statements indicated that the tentative suggestion that the term "apple vinegar" be permitted for vinegar made from evaporated apples is not satisfactory either to some of the manufacturers who make such vinegar or to those who make vinegar from the expressed juice of the apple. Most of the State food officials also objected to the use of this term for vinegar made from evaporated apple stock.

The manufacturers of vinegar from such material claim that as their vinegar is made wholly from apples and apple products they have a right to use the descriptive terms "cider vinegar" and "apple cider vinegar." Those who manufacture from fresh apple juice insist that the decision be strictly adhered to. It became evident that whatever decision might be reached the case would have to be passed upon ultimately by the courts. The Secretary of Agriculture has therefore determined to have the matter promptly settled by the courts. Pending the decision of the court no seizure will be made of vinegar made from evaporated apple stock and labeled "apple vinegar," as tentatively suggested on July 14, 1921.

Joseph R. Hood spent Wednesday in Kansas City.

The College Band, Orchestra and Glee Clubs were organized at the Chillicothe Business College last week and the football squad under Coach Neel is hard at work each evening preparing for its heavy schedule.
